Thank you for your interest in working for the chemistry department during fall semester 2015. To apply for work, please fill out the form below. You will need your schedule, so do not fill this out until after you have completed registration. Make sure you include all of your regularly scheduled activities (classes, labs, music organizations, sports) on the schedule at the bottom of the page. You must turn this form in to the Chemistry Office immediately after registration for a good chance of getting a job. Application deadline is Monday, May 11th. We will try to assign jobs according to your preferences, but this is not always possible. HINT: we usually get many, many applicants for the lower level course jobs (esp. paper graders); your chances of actually getting a job are the best if you show an interest in various positions, especially in upper level lab assisting! The applications will be reviewed and assignments made the following week. If you do NOT receive an offer letter, there were not enough jobs available that fit your interests and/or abilities. All applications will be kept in case positions re-open. This does happen quite often and we will check the applications for compatibility of interests and availability.

What classes/labs are YOU taking and when do they meet?
What times are you unavailable due to music organizations or sports practices?
Please write your schedule below. Thank you!
