

# OLE Experience in Practice

Use this form and the description of the OLE Experience in Practice below to answer the following questions In English, drawing on your experiences in Spain both in and outside the classroom. Each response should be 150-200 words in length.

## St. Olaf College OLE Core General Education Curriculum | OLE Experience in Practice Requirement

**Description:** Students will engage in work that integrates academic and experiential learning by applying classroom theories and ideas in a practical setting and/or drawing upon experiential learning to advance their understanding in an academic setting. All students will have the opportunity to benefit from the mentoring, guided inquiry, and reflection that characterize experiential learning.

### Intended Learning Outcomes:

*Students will:*

1. Identify emerging vocational and/or academic interests based on the experience.
2. Integrate prior/concurrent coursework with the experience.
3. Evaluate skills and roles, including those that help them contribute to the community.

1. How were you able to connect knowledge and experience gained in prior St. Olaf courses with your learning in Spain?

---

---

---

---

---

2. How did you use your knowledge or skills to contribute to the course group and/or your homestays or others in the Spanish community? (This could also include the pre-departure orientation sessions.)

---

---

---

---

---

3. How has the January term in Spain helped you think about your vocational and/or academic interests?

---

---

---

---
