

GHS ILO #3: Analyze evidence within its broader historical and cultural contexts.

Prompt: Pick a quote from one of the following works we read, where the author's view seems informed by the historical and cultural context of writing. Introduce the quote and explain to your reader where it fits in the larger theory and why it is important to the view. Then analyze how the view in the quote relates to its historical and cultural context, discussing whether the claims are limited to that context or may have more general application.

- Choose one:
1. Aristotle's *Politics*
  2. Aristotle's *Ethics*
  4. Marx's "Communist Manifesto"
  5. DuBois' "Strivings of the Negro People"
  6. de Beauvoir's *Second Sex*

Your discussion should be 300-400 words long.
