

Ensayo 2

In class we've been reading and analyzing the autobiographical novel *Más allá de mí* written by Francisco Jiménez. Throughout our reading we've been relating different themes to different quotes and textual details and vice versa.

For this writing in particular you should focus specifically on the ways in which Francisco is different than his classmates and develop a multi-paragraph writing that engages at least two themes that demonstrate these differences using quotes and textual evidence to back up your claims.

OBJECTIVE: Choose two (2) themes that we've seen from the novel that exemplify the ways in which Francisco is different from his classmates and support your selection of these themes with textual evidence in a formal writing that contains an introduction, body, and conclusion.

You may use the following to help you structure your writing:

- What are two themes or broader concepts that demonstrate the ways Francisco is different from his classmates at Santa Clara?
- What are some quotes or textual details that show how Francisco is different from his classmates within each theme?
- How does this evidence relate to each theme?
- Do you have a hook in your introduction? A thesis statement?

You should think of these questions as guiding themes and questions for your writing, however, your writing should not present itself like bullet point direct responses to these points. It should be a coherent, well thought out, response to the main question posed.

There is no set word limit or amount for this task, however, you should be sure your response sufficiently, if not vigorously, answers the prompt above. I will use the rubric attached to this assignment in order to assess and give feedback.

As always, any use of AI or machine/automatic translation will result in a 0 for this assignment.
