## Consent

We will need you to agree to use the electronic entrance interview and/or promissory note process. Please review the information below and provide your consent by checking the box above the submit button.

**Congratulations! We were able to authenticate the information you provided.**

You are about to begin the process of completing your entrance interview counseling and signing your promissory note electronically.

The electronic process does require:

1. One of the most recent two versions of Chrome, Firefox, Safari, or Edge.
2. Your browser to have images and JavaScript enabled.
3. If you wish to print a copy of your promissory note, you must have a printer capable of printing web pages. You can try printing the [Sample Promissory Note](#) page as a test.

Please select the loan for which you would like to complete this process. Note that you can only complete one loan at a time. **If you are declining or do not want the loan, do not select it below.**

Before you begin, there is some important information that we would like you to know.

1. If you proceed, you are agreeing to complete the entrance counseling and promissory note signature process electronically.
2. Your responses to all questions throughout this process will be recorded and made part of your electronically signed document.
3. You have the option to complete this process using the traditional signature process (printing and signing your promissory note). You must contact the school if you wish to complete entrance counseling manually and sign a paper copy of your promissory note instead of electronically signing.
4. At the end of the electronic process, you will be assigned an account. We will generate a PIN/password for future use. You must keep this information confidential.
5. You can return to our website at any time to review and print documents that you electronically signed using the assigned login information provided to you at the end of the electronic process (see item 4 above).
6. You have the right to request a paper copy of any documents that you signed electronically.

By checking this box, I certify that I have the required hardware and software as stated above and I agree to use an electronic entrance interview and promissory note process (electronic signature).
