

Art 350 questionnaire II Spring '09

Please provide the following information. Number each item corresponding to the question-number and use as much or as little space as you need:

- 1) List the art history courses you are **taking this semester**. (Please give the number and course name). Include any off-campus courses and courses taught in other departments but to which we give art history credit such as ENVST 270, Nature and the American Landscape.
- 2) List each method of doing art history that you currently know (enumerate them as "a" "b" "c" etc.) and note in which art history (or St. Olaf, art history-related courses) you have encountered each and if you have used the method yourself (e.g., in a paper or presentation or in an examination, etc.). If you don't know the name of the method, describe it. **Make this an update of what you reported at the beginning of the semester. You don't need to repeat what you wrote earlier but indicate on this sheet the earlier comments you made that remain the same.**
- 3) List each method of doing art history that you have encountered outside of art history classes (e.g., in other classes or as an intern, etc.) and note if you just observed it or if you applied it in what you were doing. **Once again, don't repeat what you wrote earlier. Add new information (which might include realization of a method you hadn't thought about earlier) and indicate on this sheet the earlier comment you made that remain the same.**

Please staple this sheet to your earlier one.

THANKS **once more** for doing this!
