

HEDS Alumni Survey 2020–2021 Summary Report St. Olaf College

Post-College Activities

Chart 1: Primary activity of alumni after 5 years

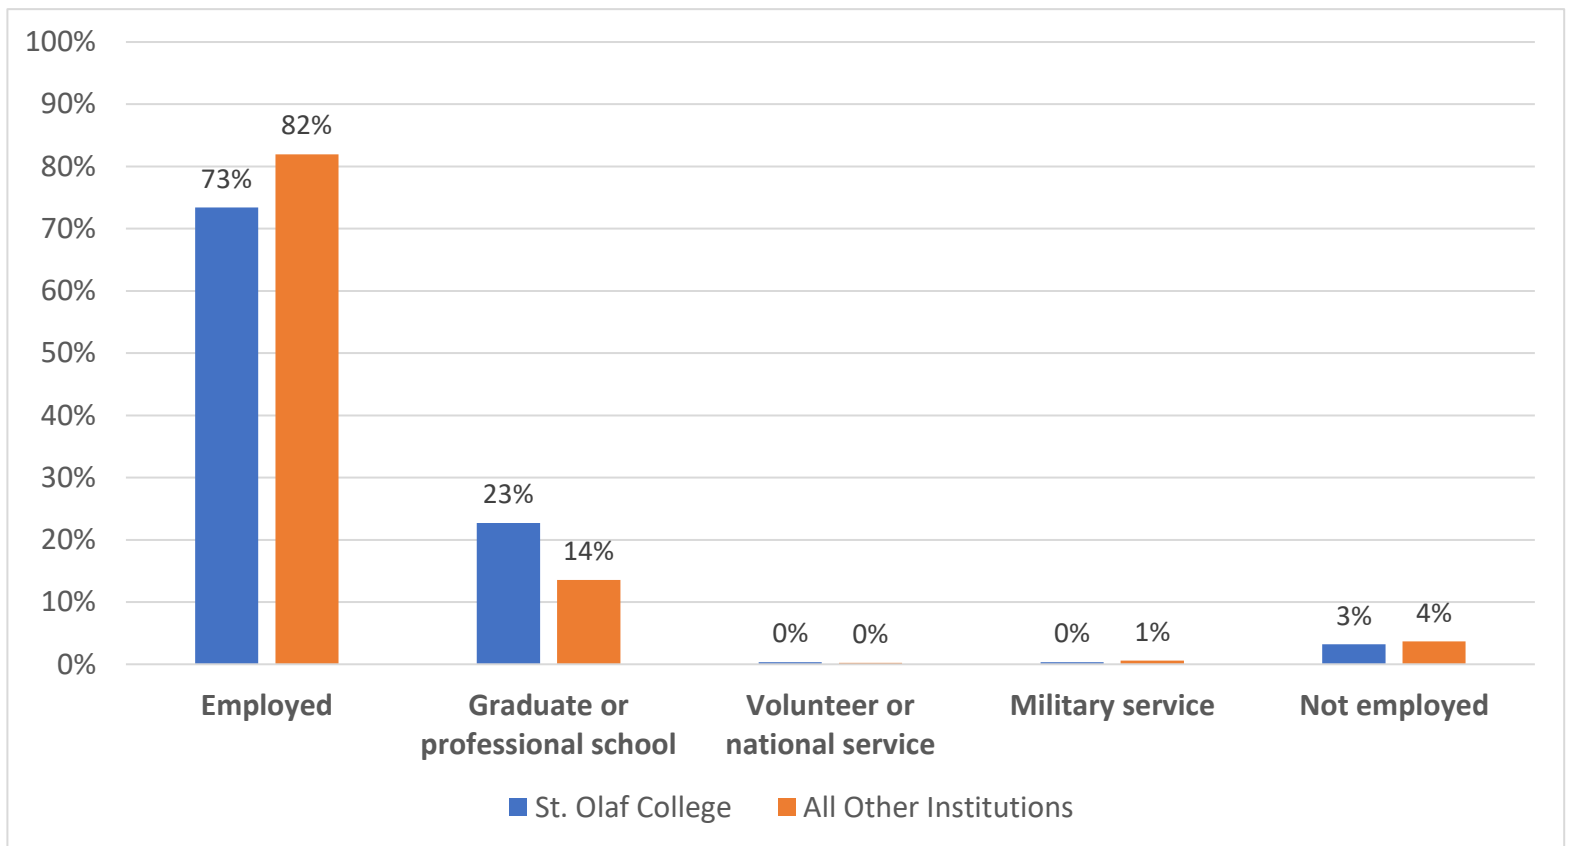

Chart 2: Current primary job of employed alumni after 5 years

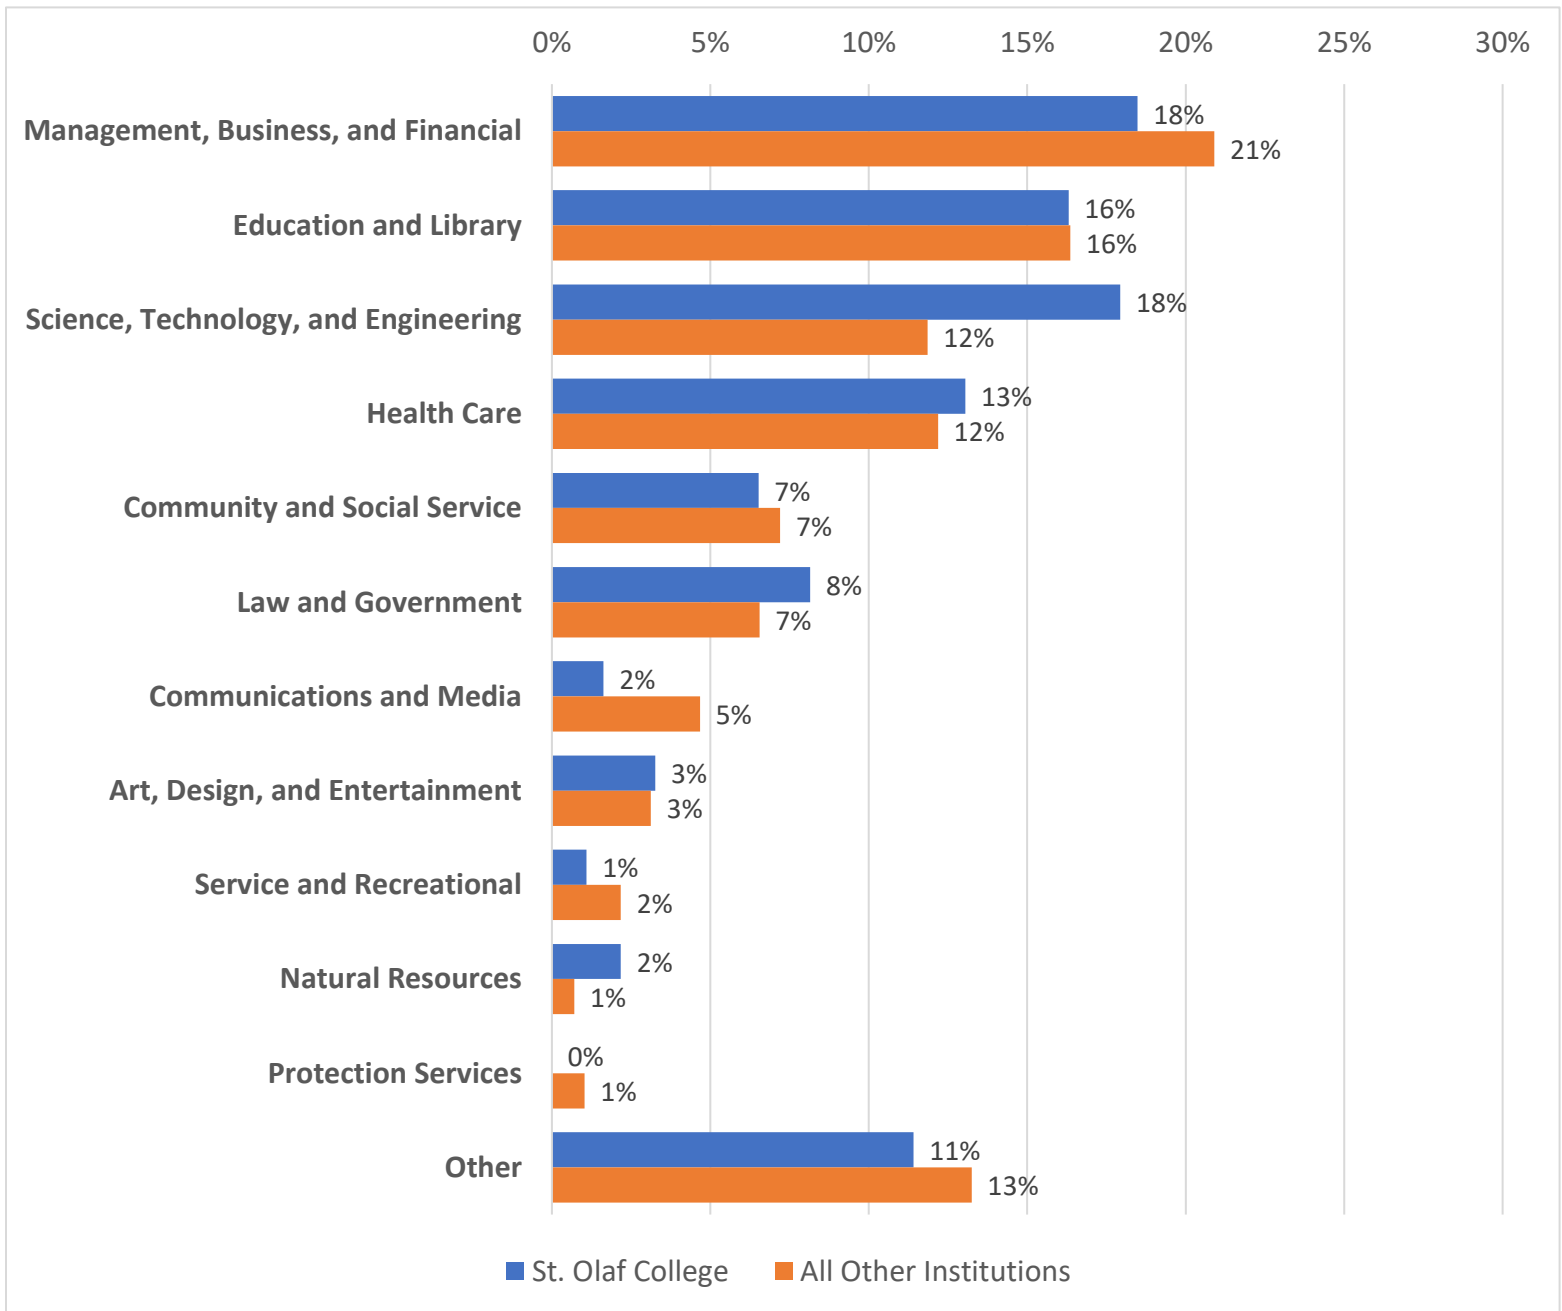

Chart 3: Percent of 5-year alumni who reported the following about their current jobs

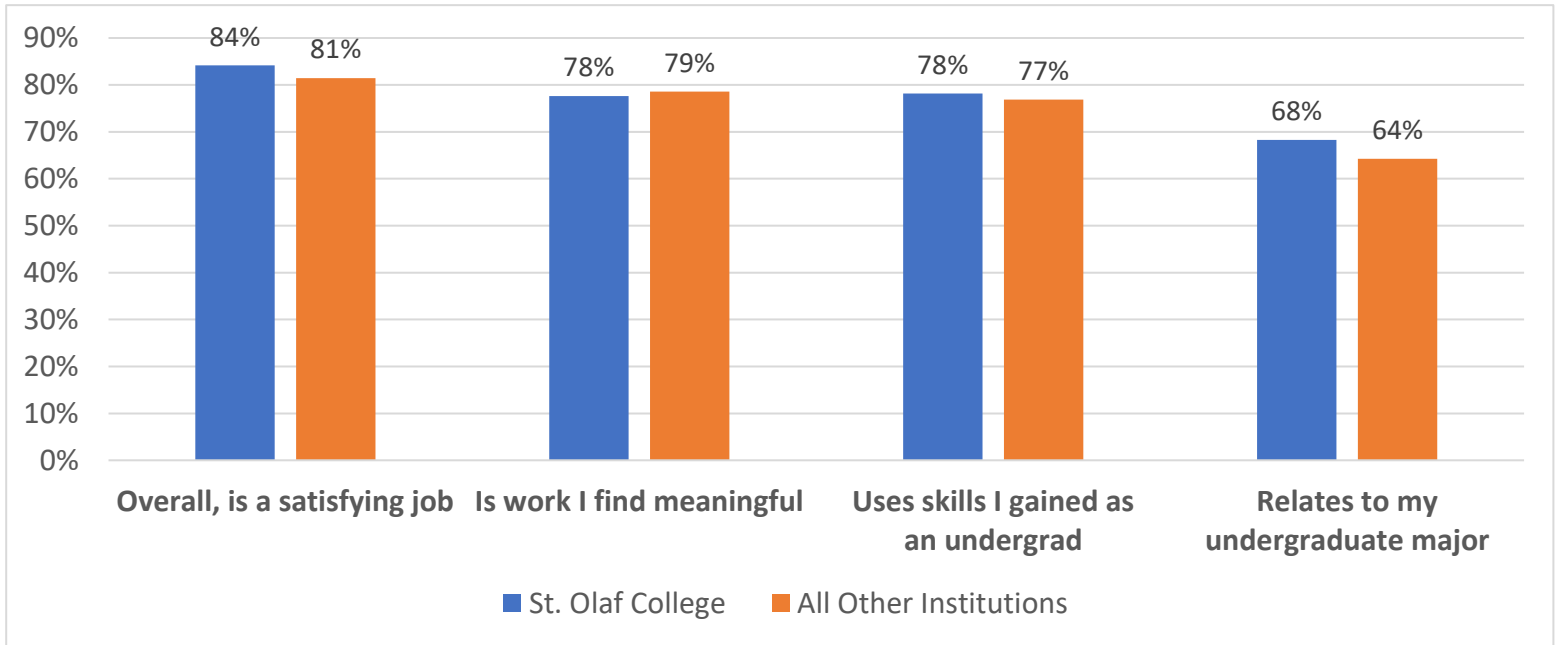

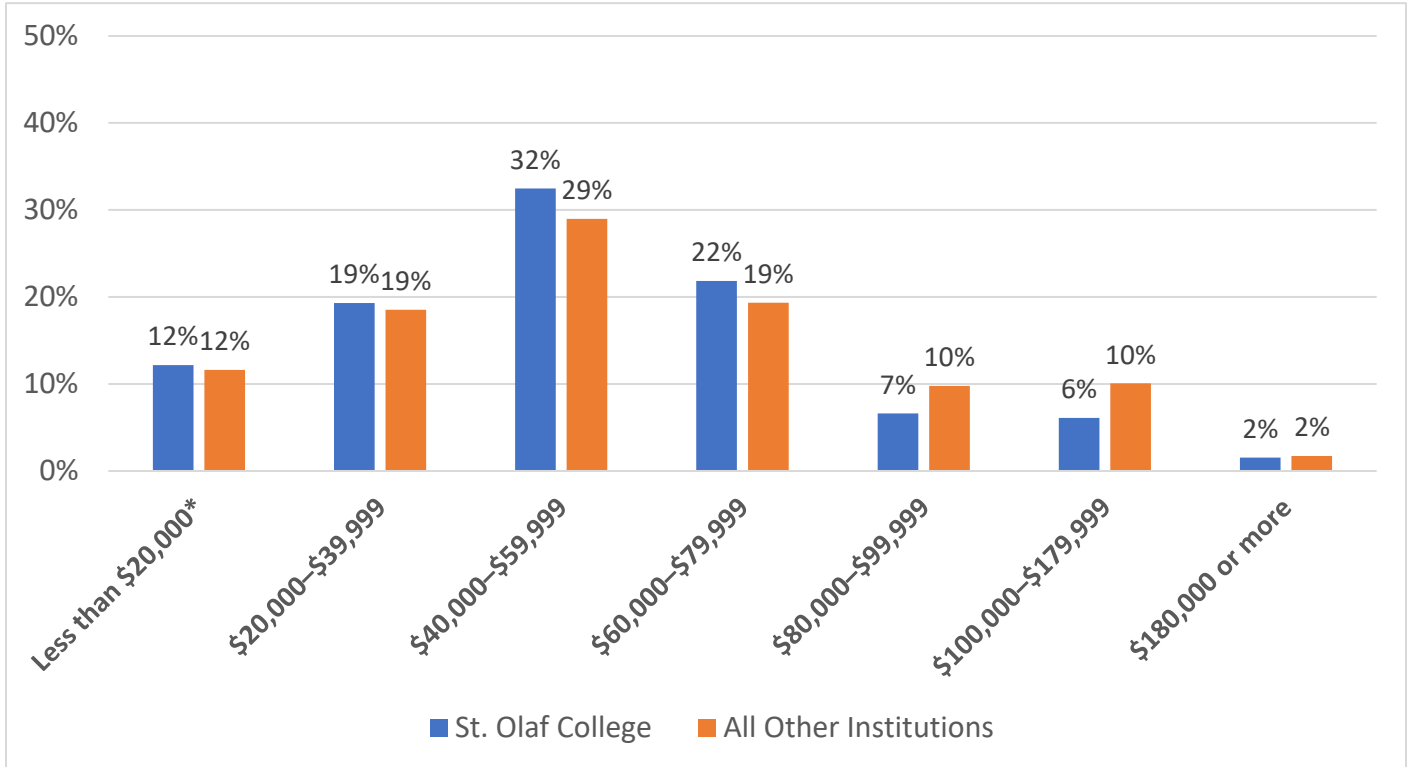

Chart 4: Annual pre-tax income of 5-year alumni

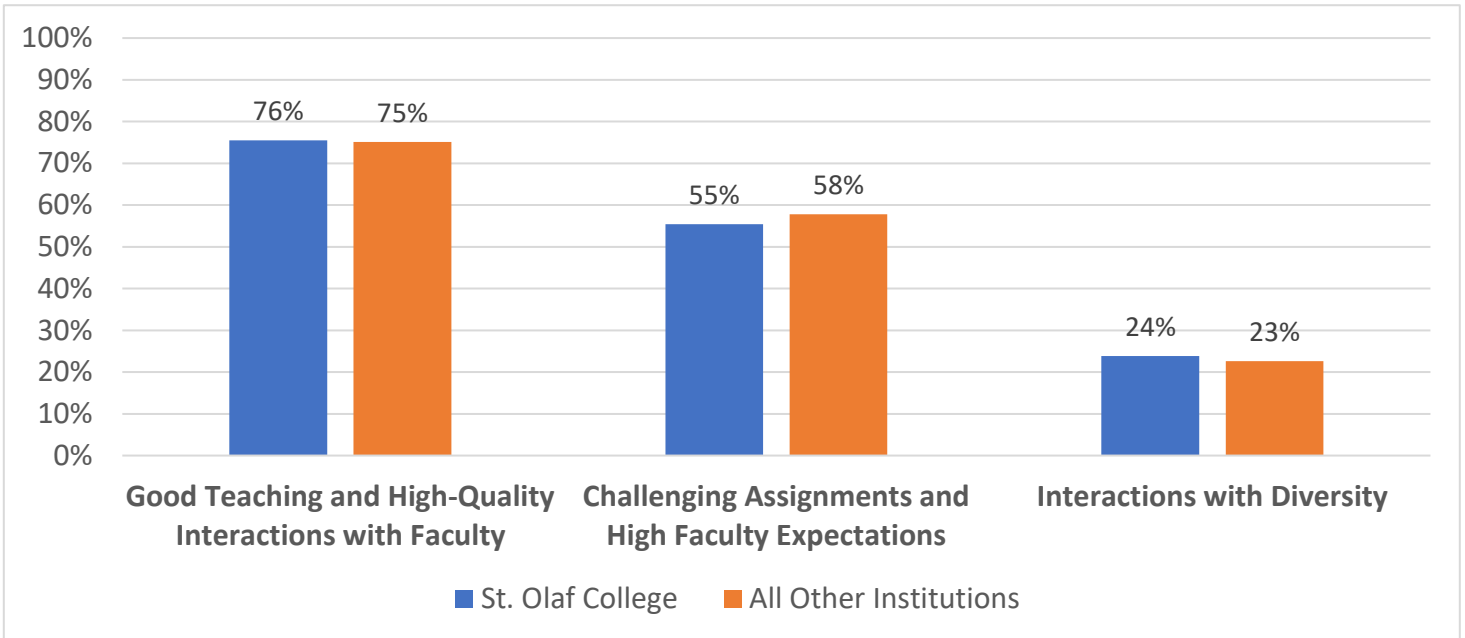

*Includes those who selected "No earned income."

Chart 5: Amount borrowed by 5-year alumni and/or their families to finance attending college

Academic Experience

Chart 6: Percent of 5-year alumni who experienced high levels of the following good practices at their alma mater

Institutional Impact

Chart 7: Percent of 5-year alumni who reported high levels of growth on the following outcomes

Table 1: Outcomes on which 5-year alumni reported their undergraduate education had the most impact

Areas with the five highest percentages for St. Olaf College

	St. Olaf College	All Other Alumni
Critical thinking	67%	62%
Effective writing	61%	54%
Information literacy	51%	50%
Problem solving	49%	46%
Integrative thinking	48%	45%

Table 2: High-participation activities and their impact on alumni learning and personal development

Activities in which the most 5-year St. Olaf College alumni participated

	St. Olaf College (n=282)		All Other Alumni
	# of alumni participating in activity	% reporting high impact	% reporting high impact
On-campus employment	174	66%	65%
Community service	166	45%	49%
Study abroad	156	91%	88%
Service organizations	145	38%	46%
Performing arts and music	142	64%	46%

Chart 8: Percent of 5-year alumni who reported that their undergraduate experience "very much" prepared them for the following activities

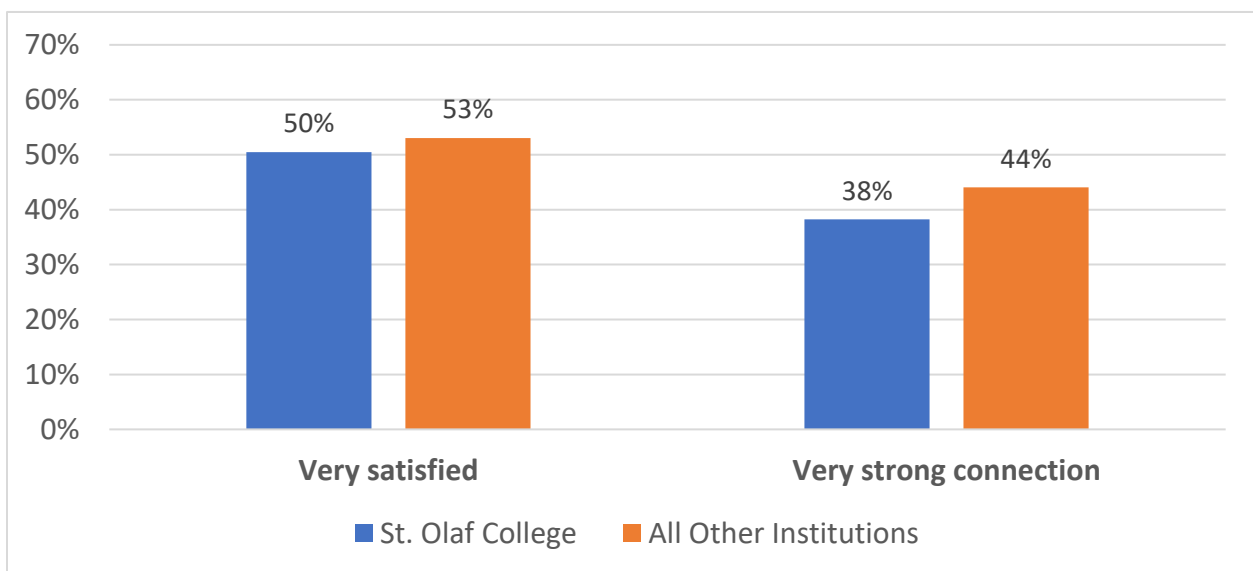

Chart 9: Percent of 5-year alumni who reported that they were "very satisfied" with or had a "very strong connection" to their undergraduate institution

Technical Information

This file summarizes data for alumni cohorts from 62 institutions that administered the HEDS Alumni Survey in the 2017–2018, 2018–2019, 2019–2020, and/or 2020–2021 academic years. The average response rate was 25%.

Xavier University	2018–2019		91	90	16%*

¹Respondents include alumni who answered at least one question. The 1-year cohort includes alumni who graduated in 2016 or 2017 for the 2017–2018 administration, in 2017 or 2018 for the 2018–2019 administration, in 2018 or 2019 for the 2019–2020 administration, and in 2019 or 2020 for the 2020–2021 administration. The 5-year cohort includes alumni who graduated in 2012 or 2013 for the 2017–2018 administration, in 2013 or 2014 for the 2018–2019 administration, in 2014 or 2015 for the 2019–2020 administration, and in 2015 or 2016 for the 2020–2021 administration. The 10-year cohort includes alumni who graduated in 2007 or 2008 for the 2017–2018 administration, in 2008 or 2009 for the 2018–2019 administration, in 2009 or 2010 for the 2019–2020 administration, and in 2010 or 2011 for the 2020–2021 administration.

²We calculated the response rate by dividing an institution's number of responses, including those alumni who did not fall into one of the cohorts included in the report, by the number of emails successfully delivered through Qualtrics.

*Institution used authentication method, and response rates for these institutions do not factor in bounced email addresses.

Information about graphs and tables in this report

“Primary activity of alumni” graph

The data presented in this graph comes from responses to Q1, “Please indicate which of the following describes your current PRIMARY activity.” We collapsed the nine responses from the original variable into the five categories seen in the graph. The “Employed” category has the “Employed, full-time,” “Employed, part-time,” and the “Employed, multiple jobs” responses. The “Graduate or professional school” category has the “Graduate or professional school, full-time” and the “Graduate or professional school, part-time” responses. The “Not employed” category has the “Not employed, but seeking employment, admission to graduate school, or other opportunity” and the “Not employed, and not seeking employment or admission to graduate school (homemaker, traveling, volunteer, retired, etc.)” responses. The “Volunteer or national service” and the “Military service” categories do not combine responses.

“Current primary job of employed alumni” graph

The data presented in this graph comes from responses to Q22, “What is your CURRENT primary job?” We collapsed the response options from the original variable into the 12 broad categories seen in the graph. See the “Appendix” tab to view the 12 broad categories in bold followed by their response options.

“Percent of alumni who reported the following about their current jobs” graph

The data presented in this graph comes from responses to Q23, “Please indicate whether each of the following descriptions applies to your current job (Check all that apply).” We calculated the percentages by dividing the number of alumni who selected each response option by the total number of alumni who answered the question and selected anything except for “I am not currently employed.”

“Annual pre-tax income of alumni” graph

The data presented in this graph comes from responses to Q34, “Which of the following most accurately describes your current personal annual income before taxes? Please report your

personal income, not your total household income.” We collapsed 14 of the response options from the original variable into the seven categories seen in the graph. We excluded those who selected, “I prefer not to respond” from our calculations. The “Less than \$20,000” category includes the “No earned income” and the “Less than \$20,000” response options. The “\$100,000–\$179,999” category includes the “\$100,000–\$119,999,” “\$120,000–\$139,999,” “\$140,000–\$159,999,” and the “\$160,000–\$179,999” response options. The “\$180,000 or more” category includes the “\$180,000–\$199,999,” “\$200,000–\$219,999,” “\$220,000–\$240,000,” and the “More than \$240,000” response options. The rest of the categories do not combine response options.

“Amount borrowed by alumni and/or their families to finance attending college” graph

The data presented in this graph comes from responses to Q26, “At the time you graduated, what was the total amount that you and/or your family borrowed to finance your undergraduate education at this institution?” We collapsed the 15 response options from the original variable into the seven categories seen in the graph. The “Less than \$20,000” category includes the “Less than \$5,000,” “\$5,000–\$9,999,” “\$10,000–\$14,999,” and the “\$15,000–\$19,999” response options. The “\$20,000–\$39,999” category includes the “\$20,000–\$29,999” and the “\$30,000–\$39,999” response options. The “\$40,000–\$59,999” category includes the “\$40,000–\$49,999” and the “\$50,000–\$59,999” response options. The “\$60,000–\$79,999” category includes the “\$60,000–\$69,999” and the “\$70,000–\$79,999” response options. The “\$80,000 or more” category includes the “\$80,000–\$89,999,” “\$90,000–\$99,999,” and the “\$100,000 or more” response options. The rest of the categories do not combine response options.

“Percent of alumni who experienced high levels of the following good practices” graph

This file contains information on five dimensions of undergraduate experience. The three included indicators and their reliabilities are:

- Good Teaching and High-Quality Interactions with Faculty – 9 statements, Cronbach's $\alpha = 0.91$
- Challenging Assignments and High Faculty Expectations – 14 questions, Cronbach's $\alpha = 0.90$
- Interactions with Diversity – 6 questions, Cronbach's $\alpha = 0.86$

These three dimensions are based on indicators that the Center of Inquiry developed and validated in the Wabash National Study. Please note that only those seniors who answered every question in the indicator receive a score.

To calculate each score, we recoded the response options for each scale into a 100-point scale. For the Good Teaching indicator: 0=Strongly disagree, 25=Disagree, 50=Neither agree nor disagree, 75=Agree, and 100=Strongly agree. For the Challenging Assignments and Diversity

indicators: 0=Never, 25=Rarely, 50=Sometimes, 75=Often, and 100=Very often. We averaged the recoded response options for each item in an indicator to calculate the indicator score. We consider indicator scores of 70 and above to be high levels of these good practices.

"Percent of alumni who reported high levels of growth on the following outcomes" graph

This file contains information on five dimensions of undergraduate experience. The two included outcomes and their reliabilities are:

- Growth on Intellectual Outcomes – 10 questions, Cronbach's $\alpha = 0.88$
- Growth on Civic Outcomes – 4 questions, Cronbach's $\alpha = 0.83$

These two dimensions are based on indicators that the Center of Inquiry developed and validated in the Wabash National Study. Please note that only those seniors who answered every question in the indicator receive a score.

To calculate each score, we recoded the response options for each scale into a 100-point scale. For the Growth on the Intellectual Outcomes and Civic Outcomes indicators: 0=Very little, 33.33=Some, 66.67=Quite a bit, and 100=Very much. We averaged the recoded response options for each item in an indicator to calculate the indicator score. We consider indicator scores of 70 and above to be high levels of these good practices.

"High-participation activities and their impact on alumni learning and personal development" table

The data in this table are from Q12, "To what extent did your experience with each of the following [activities] as an undergraduate at this institution contribute to your learning and personal development?" We ranked the 17 activities listed in this question (excluding "Other") from highest to lowest based on the number of your alumni who a) indicated that they participated in that activity in Q11, and b) chose to evaluate the impact of that activity in Q12. The table lists the five activities that your alumni participated in most often and the proportion of your alumni who reported that those activities were "high impact" - i.e., contributed "Very much" or "Quite a bit" to their learning and personal development. For comparison purposes, we also show the percent of alumni at all other institutions who reported that those activities were high impact.

"Percent of alumni who reported that their undergraduate experience 'very much' prepared them for the following activities" graph

The data presented in this graph comes from responses to Q9, "Overall, to what extent did your undergraduate experience at this institution prepare you for the following activities?"

"Percent of alumni who reported that they were 'very satisfied' with or had a 'very strong connection' to their undergraduate institution" graph

The data presented in this graph comes from responses to Q13, “How connected do you feel to this institution?” and Q14, “Overall, how satisfied have you been with your undergraduate education at this institution?”

Cohort Comparison worksheet - “Top outcomes” table

The outcomes presented in this table show the top three items from the corresponding tables on the alumni cohort worksheets.

Data Sharing Practices

You can share this report without any restrictions. We send each participating institution (both members and non-members) this report, comparing their results to those of other institutions. This report contains results from all of the HEDS members and non-members that participated in the HEDS Alumni Survey, but it aggregates data from all institutions into one comparison group and data from other institutions into another comparison group. These reports do not identify data from individual institutions.

Appendix

Job categories that alumni could select in response to the survey question about their current primary job.

What is your CURRENT primary job? (Choose one)

Art, Design, and Entertainment

- Architect
- Artist
- Entertainer
- Gallery worker
- Graphic designer
- Interior designer
- Museum curator
- Music/film industry
- Photographer
- Other Art, Design, and Entertainment

Communications and Media

- Broadcasting
- Editor
- Journalist
- Media production
- Public relations
- Publisher
- Writer
- Other Communications and Media

Community and Social Service

- Clergy
- Community organizer
- Philanthropy or nonprofit worker
- Social activist
- Social work
- Other Community and Social Service

Education and Library

- Librarian or archivist
- Preschool/elementary/middle school/high school/secondary administration
- Preschool/elementary/middle school/high school/secondary teacher
- Postsecondary administration/staff
- Postsecondary teacher or researcher
- School counselor
- Other Education and Library

Health Care

- Clinical psychology/psychiatry
- Dentist
- Dietician
- Nurse
- Optometrist
- Pharmacist
- Physical/occupational/speech therapy
- Physician
- Veterinarian
- Other Health Care

Law and Government

- Diplomat
- Foreign service
- Government worker
- International relations
- Judge
- Lawyer
- Other legal services
- Politics
- Public policy
- Other Law and Government

Management, Business, and Financial

- Accounting
- Actuary
- Advertising
- Executive
- Finance
- Human resources
- Insurance
- Management
- Real estate
- Recruiting
- Retail services
- Sales
- Other Management, Business, and Financial

Natural Resources

- Agricultural worker
- Conservationist
- Environmental scientist
- Other Natural Resources

Protection Services

- Law enforcement officer
- Military occupations
- Other Protection Services

Science, Technology, and Engineering

- Computer programmer/analyst
- Engineer
- Information systems
- Lab technician
- Scientific researcher
- Other Science, Technology, and Engineering

Service and Recreational

- Chef
- Food service industry
- Hospitality
- Sports and recreation
- Travel/tourism
- Other Service and Recreational

Other

- Other: _____
- I am not currently employed
