

**National Survey of Student Engagement (NSSE)
High-Impact Practices (HIP) Quality Module Frequency Report
Fall 2023**

In Fall 2023, the High-Impact Practices (HIP) Quality Module of the NSSE was sent to all sophomores, juniors, and seniors. In total, 287 students responded to the survey (13% response rate). Of these, 157 indicated they had completed at least one of six HIP experiences listed in the survey: internship, learning community, study abroad program, research experience, senior capstone, or service-learning course. Students were asked to select one of these experiences, either current or past, on which to base their responses to the survey. The tables below show response frequencies for the closed-ended questions; question phrasing differed (as noted in each frequency table) based on whether the student was currently completing the experience or had done so in the past.
