**Scoring:**
In the following situations, the ball will become dead, and a point will be awarded to the non-offending team:

- A player commits a service fault, positional fault, or rotational fault.
- The ball is caused to contact ground or another object outside of the playing area.
- The ball is caused to pass under the net.
- A player contacts the ball twice in succession.
- A player lifts, carries, throws, palms, or makes prolonged contact with the ball.
- A player commits a net fault.
- The ball crosses the plane of an adjacent court.

**Blocking:**
A block is an attempt to intercept the ball coming from an opponent by reaching above the height of the net.

No contacts on a block are counted towards the three hit maximum or the double hit. However, if the ball is caused out of play on a block, that is the fault of the blocker.

Players are not allowed to block the serve.

**Rotations:**
Teams do not have to rotate positions; however serving order must remain constant. Each player must be in the serving order.

A serve order fault will result in a side out and point for the opponent.

**Service:**
The first serve will be determined during the captain’s meeting. The team that serves first in the first set will serve second in the second set.

The serve may hit the net so long as it continues directly over into the opponent’s court.
The receiving team may not attack the serve while the ball is completely above the height of the net.

**Net Faults:**

No player may contact the top of the net while in the action of playing the ball.

No player interfere with the opponent’s ability to play the ball by crossing the plane of the net or contacting any part of the net. They key here is interference.

If blocking, no player may reach over the plane of the net to play the ball until the opponent’s attack has been completed.

**Tips/Set Overs:**

There are no restrictions on tipping or setting the ball over the net.
