

FALL 2024 JULIA WATKIN LECTURE

THE ENIGMA *of* ADLER'S REVELATION BY JON STEWART

THE BOOK ON ADLER

Søren Kierkegaard

Edited and Translated by
Howard V. Hong and
Edna H. Hong
with Introduction and Notes

Adler's purported revelation was a sign of religious confusion for Kierkegaard. To modern readers, it has proven difficult to make sense of Adler's actions, and the current view seems to be that he was mentally disturbed. This lecture will propose that there is in fact a logic to Adler's claims when this is seen in its wider historical and cultural context.

Virtual, on Tuesday,
November 12, 11:30 AM - 12:30
PM CST / 18:30-19:30 CET
