# Individualized Mathematics Proposal (IMaP) for Math Major Discuss your IMaP with an MSCS Faculty Member 

Name: $\qquad$ E-mail: $\qquad$
Graduation year: $\qquad$ Advisor: $\qquad$

Major(s) $\qquad$ Concentration(s)
Do you plan to get a mathematics teaching license (grades 5-12)? Yes $\qquad$ No $\qquad$
Write a brief statement about your reasons for majoring in mathematics and ideas about your post-graduate plans.

We hope you will want to be part of the MSCS community by attending colloquia, working for the department (as a grader, tutor, or teaching assistant), participating in contests, playing games, and more. Discuss these activities with an MSCS faculty member and check out the "Events" link on your webpage. List 2 or 3 activities that interest you.

Directions: In the sections below, check the courses you plan to take or have taken (since coming to St. Olaf) to complete your math major.

Basic: If courses were taken outside of St. Olaf (e.g. high school), indicate whether you have official St. Olaf credit for them. If not, you may be required to take particular electives listed on the reverse.

|  |  | Course | Term, Year | St. Olaf credit? Yes/no |
| :--- | :--- | :--- | :--- | :--- |
|  | 120 | Calculus I |  |  |
|  | $126 / 8$ | Calculus II |  | If no, then must take 226 |
|  | 220 | Linear Algebra |  | If no, then must take 252 |

Seven courses in addition to the basic courses are required. These must include:

- two transition courses
- at least one course from three of the following perspectives: Axiomatic/Algebraic (A), Continuous/Analytic (C), Discrete/Combinatorial (D), and Modeling/Computation (M)
- two Level III courses, at least one of which must be a Mathematics (MATH) course
- a 200-300-level sequence of two courses, at least one of which must be a Mathematics (MATH) course
- at least 6 courses that count toward the major must be taken after matriculation at St. Olaf

A maximum of two approved courses from outside of MATH may be counted toward the mathematics major. Approved courses are listed on the next page.

At any time, a student may petition to the director of the Mathematics Program for exceptions to the mathematics major requirements.

For more information on the requirements, see the website. NOTE: Some upper level courses are not offered every semester or even every year. Consult the department chair or the department website for confirmation of an offering during a particular term or year.

Perspectives: Circle the perspective letters for the three courses you will use to satisfy the perspectives requirement. A course can only count for one perspective.

Transition courses: at least two required

|  |  | Course | Perspectives | Term, Year |
| :--- | :--- | :--- | :--- | :--- |
|  | 242 | Modern Computational Mathematics | M |  |
|  | 244 | Real Analysis I | C |  |
|  | 252 | Abstract Algebra I | A |  |

Other Level II courses

|  |  | Course | Perspectives | Term, Year |
| :--- | :--- | :--- | :--- | :--- |
|  | 226 | Multivariable Calculus | C |  |
|  | 230 | Differential Equations | $\mathrm{C}, \mathrm{M}$ |  |
|  | 234 | Discrete Mathematical Reasoning | D |  |
|  | 236 | Mathematics of Biology | M |  |
|  | 239 | Number Theory - Budapest (abroad) | D |  |
|  | 257 | Noether and Kovalevskaya: Algebra/Analysis/Access <br> in Europe (abroad) | $\mathrm{A}, \mathrm{C}$ |  |
|  | 262 | Probability Theory | $\mathrm{C}, \mathrm{D}, \mathrm{M}$ |  |
|  | 266 | Operations Research | M |  |
|  | STAT 272 OR <br> MSCS 264 | Other MATH course \#: <br> Introductaion to Data Science | M |  |
|  | MSCS 341 | Algorithms for Decision Making | M |  |
|  | One of: | Chem 371 or Econ 384 or Econ 385 or <br> Phys 375 or CSCC 353 or EDUC 350 <br> Note: you must major in chem, econ, quantiative econ, physics, comp sci or <br> education | $\mathrm{n} / \mathrm{a}$ |  |
|  | Other | Name: |  |  |

Level III courses: Two are required, one must be part of a sequence, and at least one must be labeled Math 3xx.

|  |  | Course | Perspectives | Sequence with | Term, Year |
| :--- | :--- | :--- | :--- | :--- | :--- |
|  | 320 | Advanced Linear Algebra | A | 220 |  |
|  | 330 | Differential Equations II | M | 230 |  |
|  | 332 | Graph Theory | D | 234 |  |
|  | 340 | Complex Analysis | C | 226 |  |
|  | 344 | Real Analysis II | C | 244 |  |
|  | 348 | Topology | A | 244 |  |
|  | 352 | Abstract Algebra II | A | 252 |  |
|  | 356 | Geometry | A | 220 |  |
|  | 364 | Combinatorics | D | 234 |  |
|  | 382 | Topics in Math: (name) |  | Det. By <br> instr.\# |  |
|  | 384 | Topics in Applied Math: (name) |  | Det. By <br> instr.\# |  |
|  | 396 | Directed Undergraduate Research |  | Det. By <br> instr.\# |  |
|  | S 322 | Statistical Theory |  | 262 |  |
|  | CS 333 | Theory of Computation |  | n/a |  |
|  | Other | Name: <br> paragraph |  |  |  |

Go online to Student Information System (SIS) and declare Mathematics, then submit this form to Ellen in RMS 307.
