

# EARTH ETHICS

*A Case Method Approach*

James B. Martin-Schramm, Daniel T. Spencer,  
and Laura A. Stivers

"*Earth Ethics* is an invaluable resource for teaching and reflection on key ecological challenges. It will engage students and scholars alike with its case studies that bring real world dilemmas into clear focus."

—Mary Evelyn Tucker,  
Yale Forum on Religion and Ecology

"The intersection of social and environmental ethics, like Religion and Ecology, is rapidly emerging as a vital field of work. With a clear ethical framework applied to contemporary global problems, *Earth Ethics: A Case Method Approach* is just right for teaching about issues at this vexing nexus."

—Larry Rasmussen, professor emeritus,  
Union Theological Seminary, NY

This revised edition of *Christian Environmental Ethics: A Case Method Approach* explores several complicated and interwoven problems in social and environmental ethics and provides resources for engaging in ethical reflection about them.

Nine cases explore issues like population growth, material consumption, and climate change; water rights and species conservation; genetic engineering and food security in Sub-Saharan Africa; hydraulic fracturing and greenhouse gas reduction options; and mountaintop coal removal mining and fossil fuel divestment.

The audience for this book has been expanded to include not only those engaged in religious studies but also those engaged in philosophical ethics and environmental studies. Utilizing the tried-and-true case method approach pioneered by the Harvard Business School, the case studies present material in a clear and relevant fashion. In addition, the structure of the book allows instructors to select discrete issues for study and discussion.

**James B. Martin-Schramm** is professor of religion at Luther College in Decorah, Iowa.

**Daniel T. Spencer** is associate professor of environmental studies at the University of Montana.

**Laura A. Stivers** is professor of ethics and Dean of the School of Arts, Humanities and Social Sciences at Dominican University of California.
