Professor Thera
Graduate School
1234 College Street
University Town, XX 54321

Dear Professor Thera,

I would like to thank you again for taking the time to interview me yesterday for the entry to profession Doctor of Physical Therapy program. It was very helpful for me to be able to talk with you about the University of North Carolina's mission and learning firsthand about the unique aspects of your program affirmed my interest in pursuing a future in physical therapy.

After speaking with you about your work in neurorehabilitation, I was inspired to do a bit more searching on my own and found some very intriguing articles and future directions which I am very excited to pursue in the future. My experiences working with patients suffering from mental as well as physical disabilities have strengthened my desire to increase my knowledge of the mind-body connection and apply it to a future practice. Chapel Hill would be the perfect place for me to learn from leading professionals and foster my curiosity and dedication to improving patients' quality of life.

I would like to reiterate my continued interest in earning North Carolina's eDPT degree. The values and mission of your program align with my own and I would love the opportunity to contribute to and be a part of the leading UNC team! Please feel free to contact me by email or phone if you have any further questions.

Again, thank you for your time and consideration of my application and I will look forward to hearing from you and the selection committee.

Sincerely,

Rhonda Rehab
