MY PSYCHOLOGY MAJOR

Use this sheet to plan your schedule and keep track of your progress in the major. Timing shown is ideal; actual timing may vary.

1. One Introductory Course (usually during First year):

- *Principles of Psychology* (Psych 125) – this course (or AP Psychology credit score of 4 or 5) is a prerequisite for other Psychology courses.

2. Two Methodology Courses (ideally by end of Sophomore year):

- *Statistics* (Stats 172/212, or Stats 110, or Econ 260/263, or AP Statistics credit score of 4 or 5).
- *Research Methods* (Psych 230; prerequisite is *Statistics*).

3. Three Psychology Core Content Courses: Choose at least 1 each from 3 of the 4 core areas below:

*Note: some core courses are prerequisite for specific 300-level courses, so it is a good idea to complete some core courses before Senior year.

Core Area A	Core Area B	Core Area C	Core Area D
• Biopsychology (Psych 238) OR • Sensation & Perception (235)	• Cognitive Psychology (237) OR • Conditioning & Learning (236)	• Developmental Psychology (241) OR • Social Psychology (249)	• Psychology of Personality (244) OR • Psychopathology (247)

4. Two Advanced (300-Level) Psychology Courses (usually in Junior and Senior years):

· See SIS and the Psychology Department website for a list and description of 300-level Psychology courses offered each term.
· Most Psychology 300-level courses have *Research Methods* as a prerequisite; check individual course descriptions for additional prerequisites.
· Only 1 research course (e.g., Psych 393, 395, 396, or 398) may count toward this 300-level requirement.
· Psych 394 (*Internship*) counts toward the major but does not count toward this 300-level course requirement.

- 300-level Psychology course #1: _____

- 300-level Psychology course #2: _____

5. Two Additional Psychology Courses (full-credit courses, at any level, taken at any time)

- Additional Psychology course #1: _____

- Additional Psychology course #2: _____

TOTAL = 10 courses (9 Psychology + 1 Statistics)
