

Let's Make Laundry Less of a Chore

Navigate your campus
laundry room with ease

Your Laundry Program

- Easy Wash
- Simple Dry
- Requesting Service
- Fun Activities and Education
- Connect with Us

EASY WASH

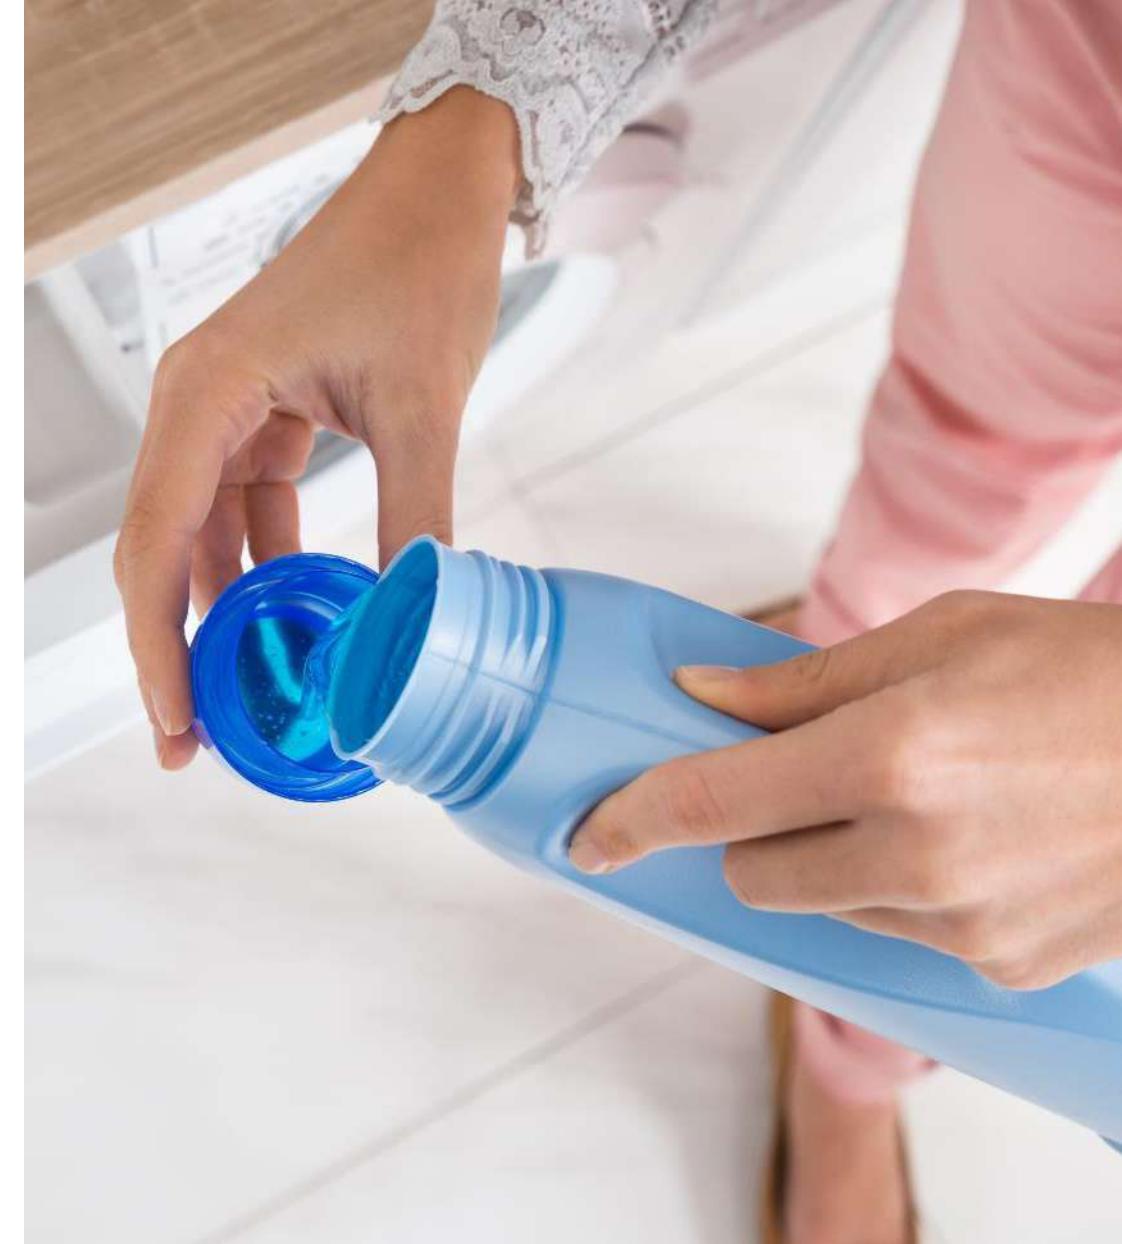

It Works for You.

Easy Wash

1. **Add** detergent to detergent drawer or toss a laundry pod in with your clothing
2. **Load** washer (DO NOT overload: leave about five inches of space at the top of the machine)
3. **Select** your cycle
4. **Swipe or tap** for payment (if applicable)

Cold water cleans effectively and saves energy

Let's Talk About Soap

What kind of soap should I use?

Laundry Pods (use in washer)

Use one pod per wash load. Place the pod inside the wash tub before adding your clothes.

Fabric Softeners (optional) (use in washer)

help protect your fabrics in the wash from pilling and fraying. They add a layer of softness to your fabrics.

Liquid Detergent (use in washer)

Always check the dose recommendation on your detergent package.
2 tablespoons of detergent is enough for a medium size load.

Dryer Sheets (use in dryer)

Fabric rubbing together in the dryer causes static. Dryer sheets fight static in the dryer.

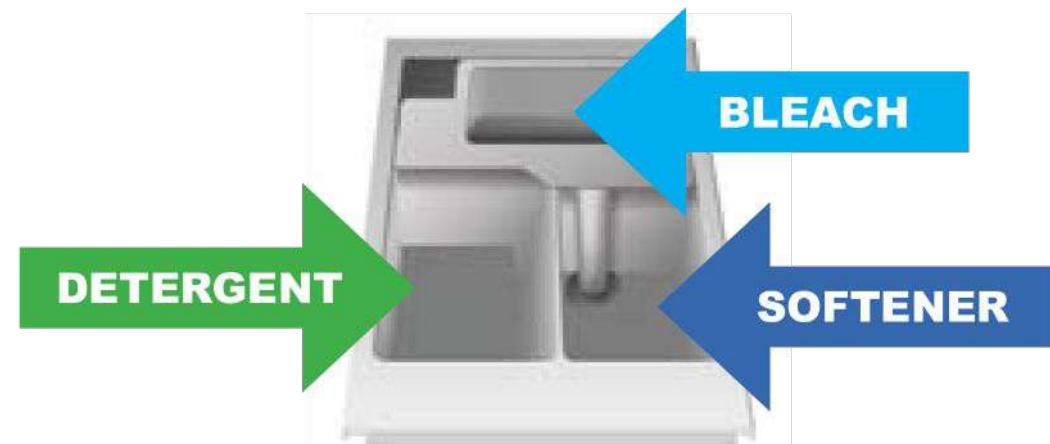

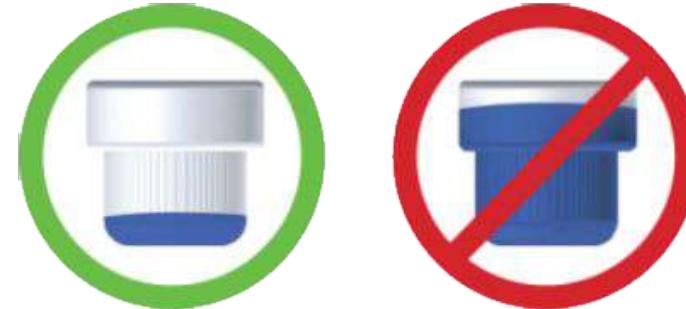

Let's Talk About Soap

How much soap should I use?

- Save your soap, use only two tablespoons of High Efficiency (HE) detergent or one laundry pod

Where do I put the soap?

- Place **liquid detergent** in the detergent drawer
- Place pods in the wash tub with your clothing

Do Not Overload

**Your clothes needs
enough room to tumble.
Apply the palm trick to
avoid overloading!**

The Palm Trick Just place your hand into the drum, and if your hand fits between your clothes and the wall of the drum, then you have the perfect load size. It's as easy as that!

Washer Hints

-  Do not overload – leave 5" of space at the top of the machine
-  Use the recommended amount of detergent
-  If using pods, place them in the tub with your clothing
-  Always empty your pockets before placing clothing in the washer

SIMPLE DRY

It Works for You.

Simple Dry

1. **Clean** lint screen for maximum air flow
2. **Select** temperature
3. **Select** cycle
4. **Swipe or tap** for payment (if applicable)

Hint: 1 wash load = 1 dry load

Dryer Hints

-  Do not dry wool, rubber, or plastic
-  Be careful; the hot setting may cause shrinkage
-  Do not overload; overloading can get expensive and even dangerous
-  Clean the dryer lint filter before and after each load

REQUESTING SERVICE

It Works for You.

3 Easy Ways to Request Service

Downloading
the CSC ServiceWorks
Service Request App

Visiting our
website at
cscsw.com

Calling Customer
Support Center at
1-800-762-3452

Please do not assume someone else has reported the issue.

Report all issues using one of the methods listed above.

Use the app to request service

Requesting service is easier than ever!

1. Download the app on
your smartphone.

**Service
Request**

2. Scan barcode
(located on license plate on
the front of the machine).

3. Select the problem
from a dropdown list and
hit submit.
