

UPCOMING OPPORTUNITIES IN PHYSICS: RESEARCH, PROFESSIONAL DEVELOPMENT, AND BEYOND

*Featuring: Brian Borovsky, Anne
Gothmann, Kurtis Johnson &
Joey Paulson*

Wed, February 11th at 3:00 PM
RNS 210

Join us for a brief but lively colloquium that will unveil a spectrum of research and professional development opportunities within the Physics Department, tailored for the upcoming summer and beyond. Each faculty member will share an overview of their research project, and there will be plenty of time for questions afterward.

Summer of Discovery

Brian Borovsky, Anne Gothmann and Joey Paulsen will present their plans for CURI research positions this summer, promising experiences that will challenge and inspire you!

Earn and Learn

Kurtis Johnson will introduce various roles available within the department over the summer. This is your opportunity to gain invaluable work experience, develop technical skills, and receive excellent mentorship.

Snacks and Fun

Join us for the kickoff to our spring Physics Colloquium series! Catch up with your physics friends and fellow majors, enjoy an afternoon snack, and spend some time with your favorite physics professors and staff.
